Dear Sir/Madam,

The WFP Ethiopia Country Office takes this opportunity to invite you to participate in the Stakeholder Feedback Round of the **Fuel Efficient Stoves for Ethiopia Programme of Activity**, which is currently being developed as an emission reduction project also known as ‘Programme of Activities’. As part of the carbon credit certification process overseen by the Gold Standard Foundation, relevant stakeholders are presented with an opportunity to provide feedback on the general programme design through two separate rounds of stakeholder consultations. The first round was the Local Stakeholder Consultation, which was organized by the WFP Ethiopia Country Office on 15th November 2013 at Bahir Dar, Amhara Ethiopia. Please note that during the Local Stakeholder Consultation the name of the Programme was still ‘Improved Cook stove Initiative Ethiopia’. The name of the Programme has changed, however organizational structure, design and responsibilities of the programme are the same.

The second consultation is this Stakeholder Feedback Round, which is not a physical meeting but happens through outreach by email or phone. The purpose of this Stakeholder Feedback Round is to share with you the final documentation and programme design of the **Fuel Efficient Stoves for Ethiopia Programme of Activity**.
